

I am currently being cared for by early permanence carers until the court decides upon my permanent care plan and placement.

My carers and I have different surnames.

Please tell my carers when it is time for my appointment and do not display my name on the digital board.

Please can all medical and sensitive issues be talked about in private.

Please be vigilant when documenting personal information in writing, such as in my red book and letters and check with my carers before doing so.

Thank you for your help.
